

Exam 1

Part 1. Basic questions.

Answer briefly but accurately.

- How do you read Latin? L → R, using endings to tell a word's function
- What's a kernel? Core components of different sentence types — S V intrans., S V O trans.
- What is a declension? Group of case endings used by all the nouns in that declension
- What's the rule about neuter words? NOM = ACC
- What's the gen.sg. ending for each declension? 1 ae 2 i 3 is 4 ūs 5 eī
- What's a pronoun (not an interrogative pronoun specifically, just a pronoun)? Refers without naming specifically

Part 2. Labelling.

Write a label above each kernel constituent.
